

Joint Statement from BEMC and the Town of Oak Island – August 10, 2020 (12 noon)

Oak Island is a tight-knit community, and the Town and BEMC are committed to the health and safety of all residents, homeowners and visitors.

Brunswick Electric has worked with the Town to assess damage and restore power to as many homes and businesses as possible since Hurricane Isaias made landfall last week.

Conditions are unsafe for power restoration in some areas, and with safety as the top priority, the Town of Oak Island and inspectors are working together to identify and repair electrical issues. BEMC stands ready to reenergize these homes when the issues are corrected.

We encourage you to contact the town 910-278-5011 for more information about the repair and inspection process.
