

# **FINAL PUBLIC NOTICE**

The Town of Oak Island has applied for Federal Emergency Management Agency (FEMA) Public Assistance (PA) Program funding through North Carolina Emergency Management (NCEM) as a sub- recipient.

Under the National Environmental Policy Act (NEPA), federal actions must be reviewed and evaluated for feasible alternatives and for social, economic, historic, environmental, legal, and safety considerations. Under Executive Order (EO) 11988 and EO 11990, FEMA is required to consider alternatives, and to provide a public notice of any proposed actions in or affecting floodplains or wetlands. EO 12898 also requires FEMA to provide the opportunity for public participation in the planning process and to consider potential impacts to minority and low-income populations. This notice may also fulfill requirements under Section 106 of the National Historic Preservation Act (NHPA).

Funding for the proposed project will be conditional upon compliance with all applicable federal, tribal, state, and local laws, regulations, floodplain standards, permit requirements and conditions.

### **Special Flood Hazard Area Zone:**

This project is for repairs to multiple Beach Access Parking Lots throughout the Town of Oak Island to restore these facilities to pre-disaster design, function, and capacity within their existing footprints. All work is located in the AE zone (1% Annual Chance Flood Hazard) and VE zone (Coastal High Hazard Zone). Confirmation of location in a Special Flood Hazard Area (SFHA) was determined by the Brunswick County Flood Insurance Rate Map, Panel Numbers: 3720207500K, 3720206500K, 3720206600K, 3720205600K, and 3720204600K, dated 08/28/2018. The proposed work conforms to all applicable State of North Carolina and local floodplain regulations. There is a potential for the facility to be impacted by future flooding events due to its location within the AE and VE zones. The proposed work will not take place in wetlands per the United States Fish and Wildlife Service National Wetlands Inventory and will have little potential to impact or affect wetland values.

## **Proposed Work and Purpose:**

The Town of Oak Island will utilize contracts and force account labor for repairs to multiple Beach Access Parking Lots throughout the Town of Oak Island to restore these facilities to pre-disaster design, function, and capacity within their existing footprints. Repairs will consist of replacing gravel, plastic parking bumpers, wooden signposts, split-rail fencing, and signage. Restoring these facilities promotes open space usage within the community and no adverse impacts to the floodplain should occur from in-kind repairs.

## **Project Alternatives:**

**Alternative #1** (No action): The 'no action' alternative would ultimately result in a negative impact on the Town of Oak Island. If the Beach Access Parking Lots are not repaired, then adverse economic and social impacts may occur.

**Alternative #2** (Relocation): Relocation is not a practicable alternative as there is limited publicly-owned construction space available since the community is located on an island. If these facilities were to be relocated, then adverse economic and social impacts may occur.
