

EMPLOYMENT OPPORTUNITY

Job Title: Fire Equipment Operator/EMT B
Salary Range: Grade 19, \$37,982-\$56,657 (\$13.79-\$20.56 per hour) DOE
Status: Full-time, non-exempt position
Application Deadline: Open until filled

General Statement of Duties

Performs responsible fire suppression, rescue, and emergency medical response on an assigned shift in the Fire-EM& Department.

Distinguishing Features of the Class

An employee in this class participates in the operations of fire suppression, rescue, emergency medical life support and other incident response; and fire education and prevention. The employee works on a 24 hour shift and participates as part of a team in the maintenance of facilities, equipment, and apparatus. The employee shares responsibility for driving fire apparatus or EMS vehicle to response scenes and for operating pumping equipment, preparing vehicles for response, and preparing records of incidents. The employee also participates in pre-incident planning, inspections, maintenance of records, and training for increased proficiency. Work is performed under stressful emergency conditions and involves personal hazards. Work requires that the employee stay abreast of state-of-the-art fire suppression, medical response, and rescue procedures, techniques, and equipment. The employee is subject to the hazards associated with incident response work including working in inside and outside environments, working at heights, in extreme hot and cold temperatures, loud noise, vibration, moving parts, high heat, chemicals, fumes, odors, dusts, gases, poor ventilation, oils, and may require wearing respirators, SCBA and working in close quarters. The employee is also subject to the final OSHA standards on blood borne pathogens. Work is performed under regular supervision and is evaluated through observation, conferences, and written reports concerning the quality and effectiveness of work completed.

Essential Duties and Tasks

Participates in incident response; responds to alarms and participates in the suppression of fires including entry, ventilation, victim extrication and rescue, and salvage work including operation of fire apparatus and other equipment as required; responds and participates in containment of chemical spills, hazardous materials, and other related incidents.
