

**Stormwater Accessory Structure Pools Appendix Po (revised 7/2022)**

Name: \_\_\_\_\_

Address: \_\_\_\_\_

Property Address: \_\_\_\_\_

Is the proposed pool being installed: \_\_\_ in-ground or \_\_\_ above ground?

Size of your proposed pool (width x length x depth to nearest ½ ft.): \_\_\_\_\_

What material will be used for the pool decking: \_\_\_ concrete, \_\_\_ pervious concrete, \_\_\_ pavers, \_\_\_ pervious pavers, \_\_\_ wood, \_\_\_ laminated wood, or \_\_\_ other:

Will soil material dug out for your in-ground pool be: \_\_\_ hauled away, \_\_\_ spread on site, or \_\_\_ combination of the two?

Briefly describe your proposed plans of disposing of the dug-out soil materials from the in-ground pool: \_\_\_\_\_

- Stormwater Permit Fees for an above ground pool will be: \$100 (accessory plan review). Above ground pools may require additional sediment/erosion control plan review (\$200) depending on proposed plan and/or site conditions.
- All in-ground pools will require a accessory plan review (\$100), fill/excavation permit (\$250), & sedimen/ erosion control plan (\$200) in addition to other required permits.
- Total permit fees for an in-ground pool will be \$550.
- The violation for starting work without an approved permit is at least double that permit fee.
