# Dangerous Surf Conditions

Sept 13, 2023  
9:28 AM

Outlook Period: Wednesday 09/13/23 - Sunday 09/17/23

## OVERVIEW:

- Hurricane Lee will pass well east of the Carolinas over the next few days. Powerful swells from the hurricane will continue to create dangerous surf conditions at local beaches through at least Saturday, especially at east-facing beaches.

HAZARDS & IMPACTS	<ul style="list-style-type: none"><li><b>Dangerous swimming conditions expected</b> due to strong rip currents and large breaking waves.</li><li><b>High Rip Risk</b> for east-facing beaches Wednesday (Moderate for Brunswick county), with high rip current risk expected into the weekend.</li><li><b>High Surf Advisory</b> currently in effect for Coastal New Hanover and Coastal Pender through 8 AM Thursday - will likely be extended through Friday.</li><li><b>High Surf Advisory</b> possible for NE SC beaches Friday.</li><li><b>Minor erosion and overwash</b> possible during high tides late Thursday into Friday.</li></ul>
ADDITIONAL INFORMATION	<ul style="list-style-type: none"><li>Info on Hurricane Lee: <a href="https://www.nhc.noaa.gov/">https://www.nhc.noaa.gov/</a></li><li>Surf forecast matrices: <a href="https://www.weather.gov/ilw/surfmatrices">https://www.weather.gov/ilw/surfmatrices</a></li></ul>
