**Week of  
November 11, 2024**

---

**WELCOME** to ***THE CURRENT***, the weekly digital newsletter for the **Town of Oak Island, NC.**

# **NOTICE: All administrative offices for the Town will be CLOSED on Monday, November 11, 2024 in observance of Veterans Day.**

There's an old saying that has gained a resurgence in recent years, "***If you eat today, thank a farmer. If it's on your table, thank a trucker. If you eat in peace, thank a veteran.***" There are few phrases which can sum up the greatness of America in a single sentence quite like that one. While there are those that go hungry, and those without a table to sit at or peace in their home, on a macroscale America is still the place where almost anyone can have all of those things.

Working backwards on that phrase, those opportunities all start with the Veteran. The peace for our nation, which they purchase through their sacrifice, allows the trucker their livelihood and assures the farmer their land, which ultimately affords you the simple luxury of enjoying a homecooked meal. So before you sit down to enjoy your next cheeseburger in paradise, take a second to find the Veteran sitting closest to you, and offer them one as well to say "Thanks."

And once you've got your best buddy with which to battle the big burgers, sit back and relax, as we all float along in this week's edition of ***The CURRENT***.

# NEWS & NOTICES

## NEW Community Engagement Survey

This past **Thursday, November 7**, the Town launched a brand new ***Community Engagement Survey***, which provides residents & property owners an opportunity to contribute to the **2045 Charting The Course** project.

Launched in September, the project is the Town's effort to update its existing **CAMA Comprehensive Land Use Plan** (often referred to as a "Comp Plan").

Though not the only, opportunity for the community's participation, this Survey is a critical part of the project, and will provide valuable public input to help examine progress made and identify new initiatives for the future. The Survey includes questions related to the Town's simultaneous Streetscape Project and should take approximately 8 minutes to complete.

- To participate in the ***Community Engagement Survey***, visit **[OakIslandNC.gov/SURVEY](https://OakIslandNC.gov/SURVEY)**
- For those unable to fill out the Survey online, **physical copies** will be available in several Town Facilities

To learn more about the *2045 Charting The Course* project itself, visit **[OakIslandNC.gov/PLAN2045](https://OakIslandNC.gov/PLAN2045)** or click the Logo Link below.

## Christmas Parade Applications ***DUE NEXT WEEK***

As a reminder, **Parade Entry Applications** for the **Christmas By The Sea Parade** are available NOW and DUE by Wednesday November 20 ... that's NEXT WEEK!

This year's installment of the beloved annual event will be held RAIN OR SHINE on Saturday, December 7 at 2:00 PM. and will run right through the heart of Town along E Oak Island Drive, starting in front of Town Hall at 46th Street. In 20. Parade saw the largest attendance and highest number of entry participants EVER! Help us top that this year, by submitting your application TODAY!

To learn more or to download a Parade Entry Application, visit the ***Special Events*** page of the Town Website at **[OakIslandNC.gov/PARADE](http://OakIslandNC.gov/PARADE)** or click the Logo Link below.

## Citizens Academy Enrollment Now Open

Enrollment for the **[Oak Island Citizens Academy](#)** is now **OPEN** and accepting student applications for **2025!** The popular learning program is scheduled to return on **Tuesday, February 4, 2025.**

Citizens Academy is designed to educate and familiarize residents with the departments and services provided by their local government. Through hands-on learning and "in the field" demonstrations, Citizens Academy helps to provide a deeper understanding of the "who, why, & how" government works at the local level. Students will meet two (2) nights per week throughout the month of February, ending in a special dinner ceremony where they are presented with graduation certificates. Class size is limited, and requires a 100% attendance commitment.

To learn more or submit an application, visit the ***Citizens Academy*** page at **[OakIslandNC.gov/ACADEMY](http://OakIslandNC.gov/ACADEMY)** or click the link below.

## ***Staff Spotlight: Different Uniform, Same Community Service***

Following the immensely successful **Banding Together: Relief for Western NC** concert last week, the Town collected nearly **\$30,000** in financial contributions, and a **26' box truck** full of donated items for the Town of Spruce Pine, NC, to aid in their continued recovery following Hurricane Helene.

If you were at the event, you noticed a strong presence from our first responder community, including the Oak Island Police Department. However, one officer you did not see at the concert was Sergeant David Locklear. This is because Sgt. Locklear of the Oak Island Police Department is also Staff Sergeant Locklear of the North Carolina National Guard, who as it happens had been deployed to Western NC to aid in relief efforts.

That alone is worth noting, but you can image the surprise of the Oak Islanders delivering Banding Together donations in Spruce Pine, when none other than our own Sgt. Locklear appeared to help unload the truck! His unit having already been activated 2 weeks prior, it was a welcome sight to a familiar face in the western part of the state.

It goes to show that regardless of what uniform they are wearing at the time, the heart for helping those in need and calling to community service runs deep in all of our first responders. Thank you Sgt. Locklear for your service to our community, our state, and our nation!

# SAFETY BRIEF

## POLICE: A Sojourn Through Spruce Pine

As noted in the Staff Spotlight above, last week we sent the physical "Needs List" donations from the **Banding Together** to Spruce Pine, NC. Our **Community Resource Officer, Matthew Tweedie**, who is a native of the area, rode along and penned his reflections from the visit:

"I have lived in many states, and a few different countries in my 40 years, and I've seen a lot of destruction, grief, and areas that have been destroyed. But what I saw this week was nothing short of what I would call another planet. I lived in the western part of North Carolina for my entire high school years and then a few years later after. Western NC is what I would call "home." Growing up in a military family, we moved every three years like clockwork. Western NC was the one place I lived in one area longer than three years.

When I was asked if I wanted to escort the supplies to Spruce Pine, I could not say no. I used to fish, hunt and just run all over that area. I've seen many pictures and videos of the area, so I had an idea of what to expect. What I saw was nothing like the pictures. The photos and video I brought back are just a sample of what it was like.

Spruce Pine is known for the Quartz mining. That is Spruce Pine. You always heard the trains coming and going, the sounds of the mines blasting, digging, trucks coming in and out. There was none of that. It was quiet. The railroad had to be completely rebuilt. They had to fish train track sections out of the North Toe River. The roads were completely taken out. The water was so strong that it literally took curves and bends within the river and made it straight.

There are islands now where fields used to be next to the river's edge. Buildings are longer on their foundations. Cars, in the river, in trees. Single wide homes in pieces wrapped around trees. Boulders the size of cars in places where a park used to sit, or just moved like they were picked up and thrown.

The walkway bridge in Spruce Pine that was built in 1940, standing 105 feet over the North Toe River was completely removed by the water.

After all the devastation and mayhem I saw, the one thing that stood out the most ***was the people***. It doesn't matter if you're a tradesman, a banker, teacher, or a farmer; ***everyone was working together*** to start the process of rebuilding. Spruce Pine PD Chief, Kasey Cook said it best

***"Today is better than the day before. In five weeks, we have seen the worst and now the best in people's lives."***

I left Spruce Pine and drove to nearby Canton, where I am from. The mudslides that sounded like a freight train, the roads that don't exist anymore, the only thing left from houses and churches that have been in place for hundreds of years is the concrete foundation.

We live on the coast. We are the ones who must keep an eye to the sky for storms like these, not the western part of the state. But after seeing what happened I can honestly say that the residents of North Carolina may all have different names...but WE ALL ARE FAMILY! We all will help our neighbors when we are called into action."

## **FIRE: Beach Bonfire Season Begins**

Starting this coming **Saturday, November 16**, after the official end of Sea Turtle Nesting Season, **Beach Bonfires will once again be permitted** on the public beach areas. While enjoying bonfires on the beach is a time-honored tradition for many, there are some important tips everyone needs to know, whether it's their first-ever fire or just the first for the season.

A **Beach Bonfire Permit** is **REQUIRED** from the Fire Department **before any bonfire can be conducted**. Permits are **FREE** to submit online, and help to provide us with a record of when and where to expect open flames on the beach.

The permit process is automated, and **no direct approval response is provided**. After submitting, you should receive an email copy of your Permit Application. Retain this copy, either in printed or digital form, as this may be requested by first responders if called to your areas.

### **Beach Bonfire Permits:**

- **CANNOT** be submitted more than 72 hours from the date on the bonfire, to allow for accurate windspeed forecast
- **MUST** use the windspeed forecast provided on the Bonfire Permit Application (no third-party apps)
- **CANNOT** cover multiple bonfires or multiple days (one permit per bonfire, per day)
- **MUST** be submitted directly by the individual they will be used for - others cannot do this for you as part of a free or paid service
- **IMPORTANT:** If at any point windspeed forecasts change to **exceed 15 MPH**, all permits will be effectively **CANCELLED** until windspeeds lower. If windspeeds return to safe limits before your original bonfire date expires, a new application will not be needed.

As for the bonfire itself, remember to keep safety a top priority! Do NOT place bonfires in the Emergency Vehicle Paths or on any sand dunes. Make sure the flame size stays about 4 feet in diameter or smaller. Do NOT burn yard debris, trash, or any materials other than dried firewood. Finally, be sure to clean up your site; all burned materials **MUST** be cooled and completely removed from the beach (DO NOT bury materials in the sand).

To learn more about Bonfire Safety or submit a Permit Application, just visit the ***Beach Bonfires*** page at **[OakIslandNC.gov/BONFIRE](http://OakIslandNC.gov/BONFIRE)** or click patch below.
