## First Responders & Public Services Day

Earlier this month during the [October 14 Town Council meeting](#), Mayor Liz White read a proclamation recognizing **October 28, 2025** as [National First Responders and Public Services Employees Day](#).

**Pictured L-R:** Public Works Director Scott Thornall, Fire Chief Lee Price, and Police Chief Charlie Morris stand in recognition during the Proclamation.

First responders -- including public works and utilities professionals, firefighters, police officers, emergency medical technicians, paramedics, and other emergency personnel -- stand on the front lines of our communities, selflessly serving and protecting the citizens of the Town of Oak Island in times of crisis. Whether it's restoring infrastructure, performing a rescue, or ensuring public safety, they respond swiftly and courageously to emergencies, often putting their own lives at risk to ensure the safety and well-being of others. In natural disasters, accidents, medical emergencies, or public health and safety threats, our Public works and Public Safety departments are always there to be counted on when needed most.

So all this week, and Tuesday in particular, please join the Town Council and the rest of Town Staff as we say **THANK YOU** to those who serve us all in our times of need. ## Little Davis Canal Dredging Study

Last week, the Town published a ***Request For Qualifications*** (RFQ) seeking professional consulting firms to assist the Town in studying the ***Feasibility of Dredging the Little Davis Canal***. The purpose of this study is to assess the viability of dredging to address **water quality, flooding, and navigation restrictions**.

The primary objectives of this study are to:

- Determine the current condition of the canal, including sediment depth and composition.
- Evaluate potential environmental impacts and identify permitting requirements.
- Assess the engineering challenges and logistics associated with a dredging project.
- Provide a cost estimate for various dredging and sediment disposal options.
- Recommend a preferred dredging strategy, including potential funding sources

Throughout the process, the selected firm will be expected to utilize their experience and drive the process to produce an assessment in a timely manner. The firm awarded this contract will have the primary responsibility of developing the Assessment Document, and will work in coordination with the Town's Assistant Manager, Kent Jackson.

The final day for submissions is currently set for December 15, 2025 at 4:00 PM. To learn more and share this information, visit the ***Bid Postings*** page at [OakIslandNC.gov/BIDS](http://OakIslandNC.gov/BIDS) or click the link below.

# SAFETY BRIEF

## NOTICE: Beach Warning Flag Season Ends

Earlier this month back in the [October 13 edition](#), we announced the [End of the 2025 Season](#) for the **Beach Safety Unit**.

As first mentioned in the original release, the [National Weather Service](#) will **END** the daily [Beach Warning Flag](#) forecasts **THIS WEEK** on **October 31**. As always, the forecasting for our area will resume next April 1, 2026.

Just as intermittent patrols may still be possible during days with large crowds or special events, similarly the warning flags may be occasionally flown if locally observed conditions call for extra warning.

The Warning Flag System, and the forecasts which drive them are a tremendous asset to ensuring public safety, and we are grateful to our partners at the NWS for the dedicated, and well informed forecasting services they provide.

Once again, the Town of Oak Island and the Oak Island Fire Department would like to extend sincere gratitude to all of our Beach Safety Unit and fellow first responders for their hard work throughout the 2025 Season!

As always, to learn more about the Beach Warning Flag system or any of the many other ways we support safety ion out public beach areas, just visit the ***Beach Safety*** page at [\*\*\*OakIslandNC.gov/SAFETY\*\*\*](http://OakIslandNC.gov/SAFETY) or click the link below.
